

Parapsychology - ESP - extra sensory perception and transcendention

Parapsychology - events, which demonstrably occur and which scientists cannot explicate

Parapsychology is term come for grecia words para (next) and psychology

Parapsychology denote scientific research upon sensory possibility, which are beyond some men. Parapsychology (otherwise also metapsychics) as branch comprises idea and practices have extrasensory perception (out of attendances sensory authorities to - eyesight, hearing, olfaction, appetites and touch) and comprises light hand also psychotronics and metapsychics. Parapsychology with deals effect and displays, which arise acitivities of the human spirit.

These effect giving a relation to intellectual activities can be by that time scientifically difficult for accout for, despite the fact that with demonstrably occur will as spontaneous (rare and sometimes unreproducible) or as designedly developed, as for example in practice experiment or activity of for purpose of achieving a concrete aims or alternations.

ESP = extra-sensory perception

Any energy can not see once be feeling, can be however it is extra-sensory apperceive and be distinguished theirs quality - as for example form, amount, character (perhaps as big positive vibe). Can be initiate also theirs birth, actuate is and further with them ass into gear - concentrate, tend, beam to apart from distances and otherwise with them cook - and this only by force of the human spirit and his free motion in another (altered) status awareness (trance).

Areas interest, examination and actual practice especially in of these area parapsychology:

Information transfer, manipulation with substance and migration spirit

- **information transfer** / telepathy, telegnosis, telestesion,
- **manipulation with substance** / imagination, transformation, telekinetion, levitation, dematerialisation,
- **migration spirit** / karma, fate, inkarnation, reinkarnation, astral journeyings.

Information transfer

Telepathy

Telepathy is extrasensory perception, amount carried over idea of on any distance and clairvoyant data acquisition. It is about paranormal communication midst persons, by lower down attend extrasenzoric by way of to information communication, senses and imagine. Telepathy dish out on spontaneous (inadvertent) and experimental (designedly developed status).

Telegnosis

Telegnosis (light hand telegnosa, telegnoza) is ability to of some of persons with cognize subjects or affairs remotely through other persons (or more of persons with), which monitor and apperceive subjects or happening on distant places by actual telepathy of transmission.

Telestesion

Telestesion (light hand telestesie, telestezie) is in parapsychology apprehension out of attendances acquaintance sensory authorities to, by it connects information on specific entity with movement answer at them, eg. dowsing.

Manipulation with substance

Imagination

Imagination is ideation, esotericism under herewith institution roger ability to fantasise anything such deeply and with such assembly, as thoughtsgiven affair can attain forms in astral plane.

Transformation

Transformation is change over, reshaping article or body, otherwise also transmutation. Incommutable with decampment or positive death, subjekt all along from now on exists, even is in other, amended by council form of their availability.

Telekinesis

Telekinesis (light hand telekinese, telekineze) is influence exercise inanimate article by force free motion, otherwise also psychokinesis for exercise clay caused only intellectual acitivities. Exercise article or change their conformation by dint of idea of (intellectual beef), out of any physical contact.

Levitation

Levitation is raised or else hovering with different body's or by people in the air as it were out of any in evidence foothold or suspension, abstractedly from earth's gravity. Levitation actuate magi, indian fakir or lama monks.

Dematerialisation

Dematerialisation (otherwise also dematerialization) is dematerialise, from after the flesh any article or organism, over his visual decampment infiltration there is still, eg. as forms of energy.

Migration spirit

Karma - fate

Karma is law causes and aftermath, control caring destiny, especially reincarnation. Under good achievements is meed of, under malignant achievements is pain. Karma is bequest former bare life. This, who committed abient acts, is herewith by negotiation burdened and vice versa. This encumbering relays for by other bare life, while with this blunder unatones, correct not or abolished.

Incarnation

Incarnation entails go into a place bodies. incarnation is ditto what incarnations. Being used for denominations periods of residence air hose valve in some bodily collection box. This residence may not be cut and dried and can be in terms of time restricted.

Reincarnation

Reincarnation is resubmission incarnations, fresh incarnations air hose valve, resurgence. Reincarnation is thus an acknowledgement facts, as though life cycle beings good many times repeats. Reincarnation is along those lines phenomenon as metempsychosis, which is metempsychoses, reincarnation to other individual.

Astral journeyings

Astral journeyings is designedly developed and perceived exercise subjekt, as the case may be his astral bodies out of his physical body. Caring subjekt creates reality - physical body and astral body, which can abstractedly from cannon, be on in a trance outside physical body and has then into it as you were admit.

Finding and experi for examination parapsychology can be employ even in practice

Businesslike activity can be administrate for achieving affirmative change in some areas

Parapsychology be possible for in some adequate cases advantage to take as contingency creative, fast and effective solution of some trouble, during which time decides not, whether it is it for persons, miscellaneous subjects or firms.

Advantage of is here contingency combinations any more each other coherent acitivities and their actual executions. In terms of possibilities is guaranteed anonymity, confidentiality and ethic. These activities can be mented in relatively short time according theirs costingness and exigencies repetition.
